I am a passionate and motivated software developer with the desire to work with focused and excellence-driven organizations to achieve personal and organizational goals. My expertise includes React, Java & Spring framework, enabling me to deliver efficient, sustainable, and customer-focused software solutions. I am looking for a challenging role that drives change and provides for career development.

EXPERIENCE

November 2022 – November 2023

NYSC {National Youth Service Corps}
Software Developer, Decagon Digital Training Limited
- Led the development of a robust web-based customer management application for the fashion industry called Adire.
- Utilized Java, Spring Framework, Servlets, JSP, Thymeleaf, and React to create a user-friendly and efficient system.
- Implemented data-driven features for customer profiling and interaction tracking.
- Consistently delivered various web projects on a weekly basis, showcasing adaptability and time management skills.
- Met tight deadlines while ensuring code quality and project functionality.
- Managed and maintained databases using SQL, including MySQL and Postgres.
- Designed and optimized database schemas for efficient data storage and retrieval.
- Ensured data integrity and security through robust SQL queries and database administration.
- Collaborated effectively with cross-functional teams using Git and GitHub, ensuring smooth integration and version control.
- Contributed to agile development processes, facilitating seamless teamwork and project progress tracking.
- Projects included a school management system, an online library platform, and a to-do application.

July 2021 - December 2021

Software Developer Intern, PrunEdge Software Technologies
- Actively engaged with senior leadership to conceptualize, plan, and execute web application projects.
- Collaborated closely with senior leaders to align development strategies with organizational goals and priorities.
- Played a pivotal role in translating business requirements into innovative and effective web solutions.
- Demonstrated a proactive commitment to professional growth by actively seeking and adopting new technologies.
- Continuously expanded skillset to stay at the forefront of emerging industry trends and tools.
- Leveraged a passion for learning to enhance problem-solving capabilities and drive project success.
- Proficiently designed and developed web applications using HTML, CSS, and JavaScript.
- Created visually appealing and user-friendly interfaces to enhance the end-user experience.
- Applied best practices in web development to ensure scalability, responsiveness, and cross-browser compatibility.

TECHNOLOGY

- **Backend**: Java, Spring boot, Spring framework, Typescript, MySql
- **Frontend**: ReactJS, NextJS, Material UI, GraphQL, Tailwind CSS, Styled Components, Animate
- **Mobile:** Flutter, React Native, Dart
- **DevOps**: Github Actions, AWS Codepipeline, AWS Codestar, AWS Amplify, EC2, ECS, S3, AWS Fargate, Route 53, Docker, CircleCI
- **Testing**: Jest, Mocha, Postman, Jenkins, Newman Postman
- **Project Management**: Agile Methodology, Scrum Master, Jira, Trello, Github Issues

CERTIFICATIONS

- **Decagon Training Institute Certification**: November 2023
- **SCRUM study |** *Scrum Fundamentals Certified (SFC):* November 2022
- **New Horizons SQL fundamentals |** *Java SE8 Programming Language. Machine Learning*

PROJECTS

- **Adire** — *Integrated Business Management Application*

Adire serves as an all-in-one assistant for tailors, offering streamlined customer information management, material and design tracking.

Technology: React, Java, Spring-boot, Postgres, Redux, MaterialUI
